Luxury Arts of the Renaissance Marina Belozerskaya,2005-10-01 Today we associate the Renaissance with painting, sculpture, and architecture—the “major” arts. Yet contemporaries often held the “minor” arts—gem-studded goldwork, richly embellished armor, splendid tapestries and embroideries, music, and ephemeral multi-media spectacles—in much higher esteem. Isabella d’Este, Marchesa of Mantua, was typical of the Italian nobility: she bequeathed to her children precious stone vases mounted in gold, engraved gems, ivories, and antique bronzes and marbles; her favorite ladies-in-waiting, by contrast, received mere paintings. Renaissance patrons and observers extolled finely wrought luxury artifacts for their exquisite craftsmanship and the symbolic capital of their components; paintings and sculptures in modest materials, although discussed by some literati, were of lesser consequence. This book endeavors to return to the mainstream material long marginalized as a result of historical and ideological biases of the intervening centuries. The author analyzes how luxury arts went from being lofty markers of ascendancy and discernment in the Renaissance to being dismissed as “decorative” or “minor” arts—extravagant trinkets of the rich unworthy of the status of Art. Then, by re-examining the objects themselves and their uses in their day, she shows how sumptuous creations constructed the world and taste of Renaissance women and men.

Sweet Treats around the World Timothy G. Roufs,Kathleen Smyth Roufs,2014-07-29 From apple pie to baklava, cannoli to gulab jamun, sweet treats have universal appeal in countries around the world. This encyclopedia provides a comprehensive look at global dessert culture. Few things represent a culture as well as food. Because sweets are universal foods, they are the perfect basis for a comparative study of the intersection of history, geography, social class, religion, politics, and other key aspects of life. With that in mind, this encyclopedia surveys nearly 100 countries, examining their characteristic sweet treats from an anthropological perspective. It offers historical context on what sweets are popular where and why and emphasizes the cross-cultural insights those sweets present. The reference opens with an overview of general trends in desserts and sweet treats. Entries organized by country and region describe cultural attributes of local desserts, how and when sweets are enjoyed, and any ingredients that are iconic. Several popular desserts are discussed within each entry including information on their history, their importance, and regional/cultural variations on preparation. An appendix of recipes provides instructions on how to make many of the dishes, whether for school projects or general entertaining.

Everyone Eats E. N. Anderson,2005-03-01 Everyone eats, but rarely do we ask why or investigate why we eat what we eat. Why do we love spices, sweets, coffee? How did rice become such a staple food throughout so much of eastern Asia? Everyone Eats examines the social and cultural reasons for our food choices and provides an explanation of the nutritional reasons for why humans eat, resulting in a unique cultural and biological approach to the topic. E. N. Anderson explains the economics of food in the globalization era, food's relationship to religion, medicine, and ethnicity as well as offers suggestions on how to end hunger, starvation, and malnutrition. Everyone Eats feeds our need to understand human ecology by explaining the ways that cultures and political systems structure the edible environment.

The Woman of Colour Lyndon J. Dominique,2007-10-24 The Woman of Colour is a unique literary account of a black heiress' life immediately after the abolition of the British slave trade. Olivia Fairfield, the biracial heroine and orphaned daughter of a slaveholder, must travel from Jamaica to England, and as a condition of her father's will either marry her Caucasian first cousin or become dependent on his mercenary elder brother and sister-in-law. As Olivia decides between these two conflicting possibilities, her letters recount her impressions of Britain and its inhabitants as only a black woman could record them. She gives scathing descriptions of London, Bristol, and the British, as well as progressive critiques of race, racism, and slavery. The narrative follows her life from the heights of her arranged marriage to its swift descent into annulment and destitution, only to culminate in her resurrection as a self-proclaimed "widow" who flouts the conventional marriage plot. The appendices, which include contemporary reviews of the novel, historical documents on race and inheritance in Jamaica, and examples of other women of colour in early British prose fiction, will further inspire readers to rethink issues of race, gender, class, and empire from an African woman's perspective.

The Consolations of Philosophy Alain De Botton,2013-01-23 From the author of How Proust Can Change Your Life, a delightful, truly consoling work that proves that philosophy can be a supreme source of help for our most painful everyday problems. Perhaps only Alain de Botton could uncover practical wisdom in the writings of some of the greatest thinkers of all time. But uncover he does, and the result is an unexpected book of both solace and humor. Dividing his work into six sections -- each highlighting a different psychic ailment and the appropriate philosopher -- de Botton offers consolation for unpopularity from Socrates, for not having enough money from Epicurus, for frustration from Seneca, for inadequacy from Montaigne, and for a broken heart from Schopenhauer (the darkest of thinkers and yet, paradoxically, the most cheering).

Consolation for envy -- and, of course, the final word on consolation -- comes from Nietzsche: Not everything which makes us feel better is good for us. This wonderfully engaging book will, however, make us feel better in a good way, with equal measures of wit and wisdom.

The Roman Empire and the Indian Ocean Raoul McLaughlin,2014-09-11 This study of ancient Roman shipping and trade across continents reveals the Roman Empire's far-reaching impact in the ancient world. In ancient times, large fleets of Roman merchant ships set sail from Egypt on voyages across the Indian Ocean. They sailed from Roman ports on the Red Sea to distant kingdoms on the east coast of Africa and southern Arabia. Many continued their voyages across the ocean to trade with the rich kingdoms of ancient India. Along these routes, the Roman Empire traded bullion for valuable goods, including exotic African products, Arabian incense, and eastern spices. This book examines Roman commerce with Indian kingdoms from the Indus region to the Tamil lands. It investigates contacts between the Roman Empire and powerful African kingdoms, including the Nilotic regime that ruled Meroe and the rising Axumite Realm. Further chapters explore Roman dealings with the Arab kingdoms of southern Arabia, including the Saba-Himyarites and the Hadramaut Regime, which sent caravans along the incense trail to the ancient rock-carved city of Petra. The first book to bring these subjects together in a single comprehensive study, *The Roman Empire and the Indian Ocean* reveals Rome's impact on the ancient world and explains how international trade funded the legions that maintained imperial rule.

Healing with Poisons Yan Liu,2021-06-22 Open access edition: DOI 10.6069/9780295749013 At first glance, medicine and poison might seem to be opposites. But in China's formative era of pharmacy (200–800 CE), poisons were strategically employed as healing agents to cure everything from abdominal pain to epidemic disease. *Healing with Poisons* explores the

ways physicians, religious figures, court officials, and laypersons used toxic substances to both relieve acute illnesses and enhance life. It illustrates how the Chinese concept of *du*—a word carrying a core meaning of “potency”—led practitioners to devise a variety of methods to transform dangerous poisons into effective medicines. Recounting scandals and controversies involving poisons from the Era of Division to the Tang, historian Yan Liu considers how the concept of *du* was central to how the people of medieval China perceived both their bodies and the body politic. He also examines the wide range of toxic minerals, plants, and animal products used in classical Chinese pharmacy, including everything from the herb aconite to the popular recreational drug Five-Stone Powder. By recovering alternative modes of understanding wellness and the body’s interaction with foreign substances, this study cautions against arbitrary classifications and exemplifies the importance of paying attention to the technical, political, and cultural conditions in which substances become truly meaningful. *Healing with Poisons* is freely available in an open access edition thanks to TOME (Toward an Open Monograph Ecosystem) and the generous support of the University of Buffalo.

On Friendship Michel de Montaigne, 2005-09-06 From the 100-part Penguin Great Ideas series comes a rumination on relationships, courtesy of one of the most influential French Renaissance philosophers. Michel de Montaigne was the originator of the modern essay form; in these diverse pieces he expresses his views on friendship, contemplates the idea that man is no different from any animal, argues that all cultures should be respected, and attempts, by an exploration of himself, to understand the nature of humanity. Penguin Great Ideas: Throughout history, some books have changed the world. They have transformed the way we see ourselves—and each other. They have inspired debate, dissent, war, and revolution. They have enlightened, outraged, provoked, and comforted. They have enriched lives—and destroyed them. Now Penguin Great Ideas brings you the works of the great thinkers, pioneers, radicals, and visionaries whose ideas shook civilization and helped make us who we are. Other titles in the series include Niccolò Machiavelli's *The Prince*, Thomas Paine's *Common Sense*, and Charles Darwin's *On Natural Selection*.

Plunder Ugo Mattei, Laura Nader, 2008-03-17 *Plunder* examines the dark side of the Rule of Law and explores how it has been used as a powerful political weapon by Western countries in order to legitimize plunder - the practice of violent extraction by stronger political actors victimizing weaker ones. Challenges traditionally held beliefs in the sanctity of the Rule of Law by exposing its dark side Examines the Rule of Law's relationship with 'plunder' - the practice of violent extraction by stronger political actors victimizing weaker ones - in the service of Western cultural and economic domination Provides global examples of plunder: of oil in Iraq; of ideas in the form of Western patents and intellectual property rights imposed on weaker peoples; and of liberty in the United States Dares to ask the paradoxical question - is the Rule of Law itself illegal?

Tastes of Byzantium Andrew Dalby,2019-06-18 For centuries, the food and culinary delights of the Byzantine empire - centred on Constantinople - have captivated the west, although it appeared that very little information had been passed down to us. Andrew Dalby's Tastes of Byzantium now reveals in astonishing detail, for the first time, what was eaten in the court of the Eastern Roman Empire - and how it was cooked. Fusing the spices of the Romans with the seafood and simple local food of the Aegean and Greek world, the cuisine of the Byzantines was unique and a precursor to much of the food of modern Turkey and Greece. Bringing this vanished cuisine to life in vivid and sensual detail, Dalby describes the sights and smells of Constantinople and its marketplaces, relates travellers' tales and paints a comprehensive picture of the recipes and customs of the empire and their relationship to health and the seasons, love and medicine. For food-lovers and historians alike, Tastes of Byzantium is both essential and riveting - an extraordinary illumination of everyday life in the Byzantine world.
