The Power of Perception Shawn Andrews, 2017-12-18 The Power of Perception: Leadership, Emotional Intelligence and the Gender Divide serves as a practical guide to educate women, men and organizations on the barriers that keep women from fully contributing in the workplace. These include differences in leadership style and emotional intelligence, gender bias

and stereotypes, breadwinner and caregiver responsibilities, and differences in gender culture which show up every day at work and home. The Power of Perception also explores significant changes in global demographic trends and how our youngest generations are impacting the workplace. The Power of Perception clearly illustrates the reasons that we don't see more women leading our global businesses. It has nothing to do with women's skills and competencies and everything to do with perceptions of women as leaders, as workers, as mothers, and as wives. These perceptions have a significant impact on promotion for many women. Perception is reality—and it's powerful. The Power of Perception provides personal stories of women's journeys, real-world examples, and is based on the author's own research as well as that of many others. Every chapter includes practical, easy-to-apply strategies, summary points, and reflection questions to empower women, men, and organizations to fully leverage talent and diversity.

**From Discord to Harmony** LaVena Wilkin, Tony Belak, 2020-02-01 Conflicts happen, and the workplace can be a cacophony for competing interests. Consider that organizational culture is an ensemble of shared values, beliefs, assumptions, perceptions, and norms. Organizations are not solos. They are an accompaniment of individuals, departments, and divisions, and each is competing for scarce resources. Measure in a little power imbalance and organizational political posturing. Then, scale in the fact that today's managers are faced with diversity and cultural issues ranging from race and gender to individual ethnicity, principles, and philosophies, about which employees are more vocal. All this discord can strike a sharp note of dissonance. However, effective resolutions can change this discord to harmony. Consider that music is not a single note. Rather, it is the silence between the notes that makes beautiful music, and conflict is that silence. Unfortunately, conflict has a bad reputation, and it is often labeled as disagreement, fighting, or arguing that leads to stress, retaliation, and resentment. Some managers spend a disproportionate amount of their workdays dealing with conflicts. They have not learned what causes conflicts or how to productively manage them. As a result, they often avoid or force outcomes causing discord, fractured relationships, loss of productivity, and even lawsuits. Learning to fine tune inevitable conflicts will help managers orchestrate a more harmonious workplace. *From Discord to Harmony: Making the Workplace Hum* is largely evidence-based, and many of the chapters contain cutting-edge research by experts in their respective fields.

Human Competence Thomas F. Gilbert, 2013-08-12 What People Have Said About Human Competence: Among the ideas bulging from this classic work: performance exemplars, potential for improving performance, behavior-accomplishment distinction, performance matrix, ACORN troubleshooting test, performance audits, states, Worth = Value - Cost, knowledge maps, mediators, and job aids. The great accomplishments Gilbert left behind will continue to profit behavior analysis and performance improvement for a long, long time. --Ogden Lindsley, Behavior Research Company Human Competence is probably the most borrowed and least returned book in my library. It's good to have it in print more than once, so that I can keep replacing it, and rereading it for new insights from the original master of HPT. --Rob Foshay, TRO Learning, Inc. Human Competence stands not only as a tribute to Tom's genius, but also as the best single source of ideas about performance technology. It is a 'must have' for anyone serious about changing the performance of individuals or organizations. --Dick Lincoln, Centers for Disease Control
