European Legal History Randall Lesaffer, 2009-06-25 The rediscovery of Roman law and the emergence of classical canon law around AD 1100 marked the beginnings of the civil law tradition in Europe. Between the twelfth and eighteenth centuries, a highly sophisticated legal science of a truly European dimension was developed. Since then the different European States have developed their own national legal systems, but with the exception of England and Ireland they are all heirs to this tradition of the *ius commune*. This historical introduction to the civil law tradition, from its original Roman roots to the present day, considers the political and cultural context of Europe's legal history. Political, diplomatic and constitutional developments are discussed, and the impacts of major cultural movements, such as scholasticism, humanism, the Enlightenment and Romanticism, on law and jurisprudence are highlighted. This contextual approach makes for a fascinating story, accessible to any reader regardless of legal or historical background.

The Oxford Handbook of European Legal History Heikki Pihlajamäki, Markus D. Dubber, Mark Godfrey, 2018-06-28 European law, including both civil law and common law, has gone through several major phases of expansion in the world. European legal history thus also is a history of legal transplants and cultural borrowings, which national legal histories as products of nineteenth-century historicism have until recently largely left unconsidered. The Handbook of European Legal History supplies its readers with an overview of the different phases of European legal history in the light of today's state-of-the-art research, by offering cutting-edge views on research questions currently emerging in international discussions. The Handbook takes a broad approach to its subject matter both nationally and systemically. Unlike traditional European legal histories, which tend to concentrate on heartlands of Europe (notably Italy and Germany), the Europe of the Handbook is more versatile and nuanced, taking into consideration the legal developments in Europe's geographical fringes such as Scandinavia and Eastern Europe. The Handbook covers all major time periods, from the ancient Greek law to the twenty-first century. Contributors include acknowledged leaders in the field as well as rising talents, representing a wide range of legal systems, methodologies, areas of expertise and research agendas.

The Construction, Sources, and Implications of Consensualism in Contract Kane Abry, 2023-09-28 This book offers a comprehensive introduction to French contract law with a focus on the role of consent and the evolution of consensualism, considering its immediate historical sources. The book provides a clear, in-depth, and analytical discussion of the contingency of consensualism and how the development of consensual ideas across time and transnational geographical settings has specifically underpinned modern French contract law, which has inspired other legal systems and continues to do so. It also challenges the macro-narratives of European legal history and redefines consensualism so that it may be properly understood, addressing its manifest contemporary misinterpretations. Thorough, engaging, well-structured and inventive, there is no other English-language scholarly work that offers a similar analysis. "This monograph makes an evident contribution to the field by offering an original interpretation of several provisions in the Code Civil which relate to the law of contract. The author demonstrates an impressive grasp of Latin, French and English sources as well as knowledge of Roman law, legal history, and contemporary French law. It is well-referenced and offers an extensive bibliography". - Dr Stephen Bogle, Senior Lecturer in Private Law, University of Glasgow, UK "The author brings a critical perspective to bear throughout the monograph and develops a clear and quite sophisticated position on the interaction between consensualism and formalism in Roman and French law and the intervening European *ius commune*". - Prof Hector MacQueen, Emeritus Professor of Private Law, University of Edinburgh, UK

Citizens' Rights and the Right to Be a Citizen Ernst Hirsch Ballin, 2014-01-23 Ernst Hirsch Ballin discusses the significance of citizens' rights against the backdrop of ongoing migration and urbanization in the beginning of the 21st century. The traditional view that each state has the sovereign power to give or withhold citizenship, puts the full enjoyment

of human rights at risk whenever exclusion is based on differences in nationality. Citizens' rights are the essential connecting link between human rights and life in a democratic society. Citizens have an individual right, as a citizen, to take part in the democratic process and in the structures of solidarity of the state where they are effectively at home. By recognizing everyone's right to the citizenship of the state in which they can make these rights a reality, citizens' rights can bridge the gap between the universality of human rights and the changing political and social settings of people's lives. Limits on dual citizenship are counterproductive, European citizenship paves the way for transnational citizenship. Hirsch Ballin's book is very important for academics and practitioners in the field of citizenship. It embraces the complexity of citizenship with all its academic, practical and emotional meanings. Hopefully, Hirsch Ballin's work can serve as a compass for new directions in immigration and naturalisation debates. Katja Swider in: *Journal of European Integration*, Vol 38. nr. 4, 2016

Islamic International Law Khaled Ramadan Bashir, 2018-10-26 Through the analysis of Al-Shaybani's most prolific work *As-Siyar Al Kabier*, this book offers a unique insight into the classic Islamic perspective on international law. Despite being recognised as one of the earliest contributors to the field of international law, there has been little written, in English, on Al-Shaybani's work; this book will go some way towards filling the lacuna. *International Islamic Law* examines Al-Shaybani's work alongside that of other leading scholars such as: Augustine, Gratian, Aquinas, Vitoria and Grotius, proving a full picture of early thinking on international law. Individual chapters provide discussion on Al-Shaybani's writing in relation to war, peace, the consequences of war and diplomatic missions. Khaled Ramadan Bashir uses contemporary international law vocabulary to enable the reader to consider Al-Shaybani's writing in a modern context. This book will be a useful and unique resource for scholars in the field of Islamic International Law, bringing together and translating a number of historical sources to form one accessible and coherent text. Scholars researching the historical and jurisprudential origins of public international law topics, such as: international humanitarian law, 'just war', international dispute resolution, asylum and diplomacy will also find the book to be an interesting and valuable text.

The History of Law in Europe Bart Wauters, Marco de Benito, 2017-04-28 Comprehensive and accessible, this book offers a concise synthesis of the evolution of the law in Western Europe, from ancient Rome to the beginning of the twentieth century. It situates law in the wider framework of Europe's political, economic, social and cultural developments.

Cultural History in Europe Jörg Rogge, 2011 *Cultural History in Europe* addresses the following questions: What is the current state of discussion in cultural history? Which European institutions engage exclusively in cultural history and which topics do they address? How will cultural history develop in the future? In addition, it provides a wide-ranging overview of contemporary developments in Sweden, Norway, Finland, Great Britain, Latvia, Poland, Hungary, Austria, Switzerland, Germany, Italy, and Spain.

Europe and the People Without History Eric R. Wolf, 2010-08-22 'The intention of this work is to show that European expansion not only transformed the historical trajectory of non-European societies but also reconstituted the historical accounts of these societies before European intervention. It asserts that anthropology must pay more attention to history.' (AMAZON)

The European Union in the 21st Century Stefano Micossi, Gian Luigi Tosato, Centre for European Policy Studies (Brussels, Belgium), 2009 The contributors to this book are all members of EuropEos, a multidisciplinary group of jurists, economists, political scientists, and journalists in an ongoing forum discussing European institutional issues. The essays analyze emerging shifts in common policies, institutional settings, and legitimization, sketching out possible scenarios for the European Union of the 21st century. They are grouped into three sections, devoted to economics and consensus, international projection of the Union, and the institutional framework. Even after the major organizational reforms introduced to the EU by the new Treaty of Lisbon, which came into force in December 2009, Europe appears to remain an entity in flux, in search of its ultimate destiny. In line with the very essence of EuropEos, the views collected in this volume are sometimes at odds in their specific conclusions, but they stem from a common commitment to the European construction.

History of International Relations Erik Ringmar, 2019-08-02 Existing textbooks on international relations treat history in a cursory fashion and perpetuate a Euro-centric perspective. This textbook pioneers a new approach by historicizing the material traditionally taught in International Relations courses, and by explicitly focusing on non-European cases, debates and issues. The volume is divided into three parts. The first part focuses on the international systems that traditionally existed in Europe, East Asia, pre-Columbian Central and South America, Africa and Polynesia. The second part discusses the ways in which these international systems were brought into contact with each other through the agency of Mongols in Central Asia, Arabs in the Mediterranean and the Indian Ocean, Indic and Sinic societies in South East Asia, and the Europeans through their travels and colonial expansion. The concluding section concerns contemporary issues: the processes of decolonization, neo-colonialism and globalization – and their consequences on contemporary society. History of International Relations provides a unique textbook for undergraduate and graduate students of international relations, and anybody interested in international relations theory, history, and contemporary politics.

Provincializing Europe Dipesh Chakrabarty, 2009-06-05 First published in 2000, Dipesh Chakrabarty's influential *Provincializing Europe* addresses the mythical figure of Europe that is often taken to be the original site of modernity in many histories of capitalist transition in non-Western countries. This imaginary Europe, Dipesh Chakrabarty argues, is built into the social sciences. The very idea of historicizing carries with it some peculiarly European assumptions about disenchanted space, secular time, and sovereignty. Measured against such mythical standards, capitalist transition in the third world has often seemed either incomplete or lacking. *Provincializing Europe* proposes that every case of transition to

capitalism is a case of translation as well--a translation of existing worlds and their thought--categories into the categories and self-understandings of capitalist modernity. Now featuring a new preface in which Chakrabarty responds to his critics, this book globalizes European thought by exploring how it may be renewed both for and from the margins.

The Pursuit of Power Richard J. Evans, 2016-09-01 ECONOMIST BOOKS OF THE YEAR 2016 'A scintillating, encyclopaedic history, rich in detail from the arcane to the familiar... a veritable tour de force' Richard Overby, *New Statesman* 'Transnational history at its finest social, political and cultural themes swirl together in one great canvas of immense detail and beauty' Gerard DeGroot, *The Times* 'Dazzlingly erudite and entertaining' Dominic Sandbrook, *The Sunday Times* A masterpiece which brings to life an extraordinarily turbulent and dramatic era of revolutionary change. *The Pursuit of Power* draws on a lifetime of thinking about nineteenth-century Europe to create an extraordinarily rich, surprising and entertaining panorama of a continent undergoing drastic transformation. The book aims to reignite the sense of wonder that permeated this remarkable era, as rulers and ruled navigated overwhelming cultural, political and technological changes. It was a time where what was seen as modern with amazing speed appeared old-fashioned, where huge cities sprang up in a generation, new European countries were created and where, for the first time, humans could communicate almost instantly over thousands of miles. In the period bounded by the Battle of Waterloo and the outbreak of World War I, Europe dominated the rest of the world as never before or since: this book breaks new ground by showing how the continent shaped, and was shaped by, its interactions with other parts of the globe. Richard Evans explores fully the revolutions, empire-building and wars that marked the nineteenth century, but the book is about so much more, whether it is illness, serfdom, religion or philosophy. *The Pursuit of Power* is a work by a historian at the height of his powers: essential for anyone trying to understand Europe, then or now.

Good Neighbourliness in the European Legal Context Dimitry Kochenov, Elena Basheska, 2015-07-28 *Good Neighbourliness in the European Legal Context* provides the first detailed assessment of the essence and application of the principle of good neighbourly relations in the European legal context, illustrating its findings by a multi-faceted array of

studies dedicated to the functioning of good neighbourly relations in a number of key fields of EU law. The main claim put forward in this book is that the principle of good neighbourly relations came to occupy a vital place in the European legal context, underpinning the very essence of the integration exercise.

Politics and the Histories of International Law, 2021-07-19 What are the implications of writing the history of legal issues? Eighteen authors from different legal systems and backgrounds offer different answers, by examining the history writing on issues ranging from slavery over the use of force to extraterritorial jurisdiction. Contributions show how historiography has often distorted or neglected regional cultures and suggest alternative methods and approaches to history writing. These studies are highly relevant for current international relations in which the fight over master narratives is especially fierce among governments, in different academic fields, and also between governments and academics. Contributors are: Jean d'Aspremont, Julia Bühner, Emiliano J.Buis, Maria Adele Carrai, Jacob Katz Cogan, Rían Derrig, Angelo Dube, Michel Erpelding, Etienne Henry, Madeleine Herren, Randall Lesaffer, Anne-Charlotte Martineau, Parvathi Menon, Momchil Milanov, Hirofumi Oguri, Gustavo Prieto, Hendrik Simon, Sebastian Spitra, and Deborah Whitehall.

Postwar Tony Judt, 2006-09-05 Finalist for the Pulitzer Prize • Winner of the Council on Foreign Relations Arthur Ross Book Award • One of the New York Times's 100 Best Books of the 21st Century "Impressive . . . Mr. Judt writes with enormous authority." —The Wall Street Journal "Magisterial . . . It is, without a doubt, the most comprehensive, authoritative, and yes, readable postwar history." —The Boston Globe Almost a decade in the making, this much-anticipated grand history of postwar Europe from one of the world's most esteemed historians and intellectuals is a singular achievement. Postwar is the first modern history that covers all of Europe, both east and west, drawing on research in six languages to sweep readers through thirty-four nations and sixty years of political and cultural change—all in one integrated, enthralling narrative. Both intellectually ambitious and compelling to read, thrilling in its scope and delightful in its small details, Postwar is a rare joy.

The Cambridge Companion to European Union Private Law Christian Twigg-Flesner, 2010-05-20 The emergence of EU Private Law as an independent legal discipline is one of the most significant developments in European legal scholarship in recent times. In this 2010 Companion, leading scholars provide a critical introduction to the subject's key areas, while offering original and thought-provoking comment on the field. In addition to several chapters on consumer law topics, the collection has individual chapters on commercial contracts, competition law, non-discrimination law, financial services and travel law. It also discusses the wider issues concerning EU Private Law, such as its historical evolution, the role of comparative law, language and terminology, as well as the implications of the Common Frame of Reference project. A useful 'scene-setting' introduction and further reading arranged thematically make this important publication the student's and scholar's first port of call when exploring the field.
