Regina Root

Latin American Fashion Reader Regina Root, 2005-03-01 Latin American fashion's recent gain in popularity can be seen most obviously in mass-market ranges throughout the industrialized West. From the tango-inspired dress of Argentina and guerrilla chic in downtown Buenos Aires to swimwear on Copacabana Beach and the rainbow that adorns Mayan women, Latin America has long been a source of inspiration for designers throughout the world. Until now, however, the pivotal role played by dress in this region has surprisingly been overlooked. This book is a long overdue assessment of Latin America's influence on global fashion. The authors examine the significance of textiles and dress to Latin American culture and the reasons behind it from fashion history to popular culture and the (re)making of traditional garments, such as the poncho, the guayabera and maguey-fiber sandals. This book also considers fashion icons such as Frida Kahlo and Eva Peron, women who have been worshipped and transformed into marketable symbols of exoticism and passion, as well as the key role that dress played in their rise to celebrity on the international stage. Providing a first and definitive overview of Latin American fashion, this book is essential reading for anyone interested in Latin American cultural studies or fashion history. Winner of the 2006 Arthur P. Whitaker Prize, awarded by the Middle Atlantic Council of Latin American Studies

The Routledge Companion to Fashion Studies Eugenia Paulicelli, Veronica Manlow, Elizabeth Wissinger, 2021-09-22 This collection of original essays interrogates disciplinary boundaries in fashion, gathering fashion studies research across disciplines and from around the globe. Fashion and clothing are part of material and visual culture, cultural memory, and heritage; they contribute to shaping the way people see themselves, interact, and consume. For each of the volume's eight parts, scholars from across the world and a variety of disciplines offer analytical tools for further research. Never neglecting the interconnectedness of disciplines and domains, these original contributions survey specific topics and critically discuss the leading views in their areas. They include discursive and reflective pieces, as well as discussions of original empirical work, and contributors include established leaders in the field, rising stars, and new voices, including practitioner and industry voices. This is a comprehensive overview of the field, ideal not only for undergraduate and postgraduate fashion studies students, but also for researchers and students in communication studies, the humanities, gender and critical race studies, social sciences, and fashion design and business.

The Routledge History of Fashion and Dress, 1800 to the Present Veronique Pouillard, Vincent Dubé-

Senécal,2023-10-24 The time span covered by *The Routledge History of Fashion and Dress* starts in the nineteenth century, with the aftermath of the consumers' revolution, and reaches all the way to the present. The fashion and garment industries have been international from the beginning and, as such, this volume looks at the history of fashion and dress through the lenses of both international and global history. Because fashion is also a multifaceted subject with humanagency at its core, at the confluence of thematerial (fabrics, clothing, dyes, tools, and machines) and the immaterial (savoir-faire, identities, images, and brands), this volume adopts a transdisciplinary perspective, opening its pages to researchers from a variety of complementary fields. The chapters in this volume are organized based on their relationship to five fields of study: economics and commerce, politics, business, identities, and historical sources. Paying particular attention to change, the book goes beyond the great fashion capitals and well-known fashion centers and points to the broader geographies of fashion. Particular geographical areas focus on the emergence of new fashion systems and business models, whether they be in Sweden, Bangladesh, or Spain, or on the African continent, considered to be the "new frontier" of the industry. Covering myriad aspects of the subject this is the perfect companion for all those interested in history of dress and fashion in the modern world.

Fashion History Linda Welters, Abby Lillethun,2018-02-08 *Fashion History: A Global View* proposes a new perspective on fashion history. Arguing that fashion has occurred in cultures beyond the West throughout history, this groundbreaking book explores the geographic places and historical spaces that have been largely neglected by contemporary fashion studies, bringing them together for the first time. Reversing the dominant narrative that privileges Western Europe in the history of dress, Welters and Lillethun adopt a cross-cultural approach to explore a vast array of cultures around the globe. They explore key issues affecting fashion systems, ranging from innovation, production and consumption to identity formation and the effects of colonization. Case studies include the cross-cultural trade of silk textiles in Central Asia, the indigenous dress of the Americas and of Hawai'i, the cosmetics of the Tang Dynasty in China, and stylistic innovation in sub-Saharan Africa. Examining the new lessons that can be deciphered from archaeological findings and theoretical advancements, the book shows that fashion history should be understood as a global phenomenon, originating well before and beyond the fourteenth century European court, which is continually, and erroneously, cited as fashion's birthplace. Providing a fresh framework for fashion history scholarship, *Fashion History: A Global View* will inspire inclusive dress narratives for students and scholars of fashion, anthropology, and cultural studies.

Transvestism, Masculinity, and Latin American Literature B. Sifuentes-Jáuregui,2002-02-22 This book is about transvestism and the performance of gender in Latin American literature and culture. Ben. Sifuentes-Jáuregui explores the figure of the transvestite and his/her relation to the body through a series of canonical Latin American texts. By analyzing works by Alejo Carpentier, José Donoso, Severo Sarduy and Manuel Puig (author of *Kiss of the Spiderwoma n*), alongside

critical works in gender studies and queer theory, Sifuentes-Jáuregui shows how transvestism operates not only to destabilize, but often to affirm sexual, gender, national and political identities.

The Impossible Collection of Fashion Valerie Steele, 2011-08-01 In this limited edition, Ultimate Collection format linen clamshell and handmade oversized book, Valerie Steele flexes her curatorial muscle by showcasing the most iconic dresses of the twentieth century. From Poiret to Pucci, Doucet to Dior, Vionnet to Valentino, Steele selects one hundred dresses that caused a stir either on the runway or entering a room and ultimately inspired new directions in fashion. Steele's selections include Paul Poiret's figure-liberating 1907 gown, Madame Grès's sublimely draped goddess creation from 1938, Jean Paul Gaultier's shockingly exaggerated cone-bust corset dress circa 1984, and Hussein Chalayan's awe-inspiring remote-control fiberglass Airplane dress from 2000. The compilation, while certainly subjective, is sure to receive nods of recognition along with a gasp or two of surprise.

The Religious Life of Dress Lynne Hume, 2013-10-24 From clothing to the painted and scarified nude body, through overt, public display or esoteric symbols known only to the initiated, dress can convey information about beliefs, faith, identity, power, agency, resistance, and fashion. Taking a 'senses' approach, Hume's engaging account takes into consideration the look, smell, feel, touch and sound of religious apparel, the 'smells and bells' of dress and its accoutrements, as well as the emotions evoked by donning religious garb. The book's global perspective provides wide-ranging, yet detailed, coverage of religious dress, from the history and meaning of the simple 'no-frills' attire of the Anabaptists to the power structure displayed in the elaborate fabrics and colours of the Roman Catholic Church; Hume examines the 2,500 year-old tradition of Buddhist robes, the nudity of India's holy men, and much more. With chapters on Sufism, Vodou, modern Pagans,

as well as painted and tattooed indigenous and modern Western bodies, the reader is swept along on a sensual journey of the sight, sound, smell and feel of wearing religion. Unique in its field, this intriguing and informative anthropological approach to the body and dress is an essential read for students of Anthropology, Anthropology of Dress, Sociology, Fashion and Textiles, Culture and Dress, Body and Culture and Cultural Studies.

Porn Chic Annette Lynch, 2013-08-15 The mainstreaming of pornographic imagery into fashion and popular culture at the turn of the millennium in Britain and the US signalled a dramatic cultural shift in construction of both femininity and masculinity. For men and women, raunch became the new cool. This engaging book draws from a diverse range of examples including film, popular tabloids, campus culture, mass media marketing campaigns, facebook profiles, and art exhibits to explore expressions and meanings of porn chic. Bringing a cultural and feminist lens to the material, this book challenges the reader to question the sexual agency of the 12-year-old girl dressed to seduce in fashions inspired by Katie Price, the college co-ed flashing her breasts for a film maker during Spring break, and the waitress making her customer happy with chicken wings and a nice set of Hooters. Further it explores the raunchy bad boys being paid handsomely to tell the world about their sexual exploits, online, on film, and in popular press bestsellers. The book also contains thought-provoking artwork by Nicola Bockelmann which focuses on the permeable border between pornography and mainstream culture and urges viewers to question everyday explicitness. Balancing a popular culture approach and a strong analytic lens, Porn Chic will engage a wide audience of readers interested in popular culture, fashion, and gender studies.

Khartoum at Night Marie Grace Brown, 2017-08-22 In the first half of the twentieth century, a pioneering generation of young women exited their homes and entered public space, marking a new era for women's civic participation in northern Sudan. A provocative new public presence, women's civic engagement was at its core a bodily experience. Amid the socio-political upheavals of imperial rule, female students, medical workers, and activists used a careful choreography of body movements and fashion to adapt to imperial mores, claim opportunities for political agency, and shape a new standard of modern, mobile womanhood. *Khartoum at Night* is the first English-language history of these women's lives, examining how their experiences of the British Empire from 1900-1956 were expressed on and through their bodies. Central to this story is the *tobe*: a popular, modest form of dress that wrapped around a woman's head and body. Marie Grace Brown shows how northern Sudanese women manipulated the tucks, folds, and social messages of the *tobe* to deftly negotiate the competing pulls of modernization and cultural authenticity that defined much of the imperial experience. Her analysis weaves together the threads of women's education and activism, medical midwifery, urban life, consumption, and new behaviors of dress and beauty to reconstruct the worlds of politics and pleasure in which early-twentieth-century Sudanese women lived.

Fashion's Double Adam Geczy, Vicki Karaminas, 2015-12-17 Mere clothing is transformed into desirable fashion by the way it is represented in imagery. *Fashion's Double* examines how meanings are projected onto garments through their representation, whether in painting, photography, cinema or online fashion film, conveying identity and status, eliciting fascination and desire. With in-depth case studies including the work of Nick Knight and Helmut Newton, film examples such as *The Hunger Games*, music video *Girl Panic* by Duran Duran, and much more, this book analyses the interrelationship between clothing, identity, embodiment, representation and self-representation. Written for students and scholars alike, *Fashion's Double* will appeal to anyone studying fashion, cultural studies, art theory and history, photography, sociology, and film.

Couture and Consensus Regina A. Root, 2010 Following Argentina's revolution in 1810, the dress of young patriots inspired a nation and distanced its politics from the relics of Spanish colonialism. Fashion writing often escaped the notice of authorities, allowing authors to masquerade political ideas under the guise of frivolity and entertainment. In *Couture and Consensus*, Regina A. Root maps this pivotal and overlooked facet of Argentine cultural history, showing how politics emerged from dress to disrupt authoritarian practices and stimulate creativity in a newly independent nation. Drawing from genres as diverse as fiction, poetry, songs, and fashion magazines, Root offers a sartorial history that produces an original understanding of how Argentina forged its identity during the regime of Juan Manuel de Rosas (1829-1852), a critical historical time. *Couture and Consensus* closely analyzes military uniforms, women's dress, and the novels of the era to reveal fashion's role in advancing an agenda and disseminating political goals, notions Root connects to the contemporary

moment. An insightful presentation of the discourse of fashion, *Couture and Consensus* also paints a riveting portrait of Argentine society in the nineteenth century—its politics, people, and creative forces.

The Lost Art of Dress Linda Przybyszewski, 2014-04-29 A tribute to a time when style -- and maybe even life -- felt more straightforward, and however arbitrary, there were definitive answers. -- Sadie Stein, Paris Review As a glance down any street in America quickly reveals, American women have forgotten how to dress. We lack the fashion know-how we need to dress professionally and beautifully. In *The Lost Art of Dress*, historian and dressmaker Linda Przybyszewski reveals that this wasn't always true. In the first half of the twentieth century, a remarkable group of women -- the so-called Dress Doctors -- taught American women that knowledge, not money, was key to a beautiful wardrobe. They empowered women to design, make, and choose clothing for both the workplace and the home. Armed with the Dress Doctors' simple design principles -- harmony, proportion, balance, rhythm, emphasis -- modern American women from all classes learned to dress for all occasions in ways that made them confident, engaged members of society. A captivating and beautifully illustrated look at the world of the Dress Doctors, *The Lost Art of Dress* introduces a new audience to their timeless rules of fashion and beauty -- rules which, with a little help, we can certainly learn again.

Imagining Identity in New Spain Magali M. Carrera,2010-01-01 Using an interdisciplinary approach that also considers legal, literary, and religious documents of the period, Magali Carrera focuses on eighteenth-century portraiture and casta paintings to understand how the people and spaces of New Spain were conceptualized and visualized. Winner, Book Award, Association of Latin American Art, 2004 Reacting to the rising numbers of mixed-blood (Spanish-Indian-Black African) people in its New Spain colony, the eighteenth-century Bourbon government of Spain attempted to categorize and control its colonial subjects through increasing social regulation of their bodies and the spaces they inhabited. The discourse of *calidad* (status) and *raza* (lineage) on which the regulations were based also found expression in the visual culture of New Spain, particularly in the unique genre of casta paintings, which purported to portray discrete categories of mixed-blood plebeians. Using an interdisciplinary approach that also considers legal, literary, and religious documents of the period, Magali Carrera focuses on eighteenth-century portraiture and casta paintings to understand how the people and spaces of New Spain were conceptualized and visualized. She explains how these visual practices emphasized a seeming realism that constructed colonial bodies—elite and non-elite—as knowable and visible. At the same time, however, she argues that the chaotic specificity of the lives and lived conditions in eighteenth-century New Spain belied the illusion of social orderliness and totality narrated in its visual art. Ultimately, she concludes, the inherent ambiguity of the colonial body and its spaces brought chaos to all dreams of order.

Muslim Fashion Reina Lewis,2015-10-15 In the shops of London's Oxford Street, girls wear patterned scarves over their hair as they cluster around makeup counters. Alongside them, hip twenty-somethings style their head-wraps in high black topknots to match their black boot-cut trousers. Participating in the world of popular mainstream fashion—often thought to be the domain of the West—these young Muslim women are part of an emergent cross-faith transnational youth subculture of modest fashion. In treating hijab and other forms of modest clothing as fashion, Reina Lewis counters the overuse of images of veiled women as evidence in the prevalent suggestion that Muslims and Islam are incompatible with Western modernity. **Muslim Fashion** contextualizes modest wardrobe styling within Islamic and global consumer cultures, interviewing key players including designers, bloggers, shoppers, store clerks, and shop owners. Focusing on Britain, North America, and Turkey, Lewis provides insights into the ways young Muslim women use multiple fashion systems to negotiate religion, identity, and ethnicity.
