"All readers will be riveted by the profoundly inspirational stories and personal, intimate voices

that discuss big mistakes and complicated emotions, including ‘survivor guilt’ for choosing a different path from friends and family.” —Booklist Growing up on the rough streets of Newark, New Jersey, Rameck, George, and Sampson could easily have followed their childhood friends into drug dealing, gangs, and prison. But when a presentation at their school made the three boys aware of the opportunities available to them in the medical and dental professions, they made a pact among themselves that they would become doctors. It took a lot of determination—and a lot of support from one another—but despite all the hardships along the way, the three succeeded. Retold with the help of an award-winning author, this younger adaptation of the adult hit novel *The Pact* is a hard-hitting, powerful, and inspirational book that will speak to young readers everywhere.

Taught everywhere—from high school classrooms to graduate seminars in creative writing—it has become required reading for any American and continues to challenge readers in their perceptions of fact and fiction, war and peace, courage and fear and longing. *The Things They Carried* won France's prestigious Prix du Meilleur Livre Etranger and the Chicago Tribune Heartland Prize; it was also a finalist for the Pulitzer Prize and the National Book Critics Circle Award.

50 Social and Emotional Learning Mini Lesson Student Packets - Upper Grades Melissa Marini Svigelj, 2019-03-07 These student packets, created by an award-winning educator with 20 years of classroom experience, are ideal for an Advisory Course, Life Skills Course, or as part of a lesson in a content area course related to one of the wide variety of available topics to choose from. Students write a daily gratitude statement, are reminded to keep a growth mindset and to practice 4-7-8 breathing, answer focus questions as they watch a short video online (active links to videos included in the download as well as the length of each video), write 5 facts from CNN 10 (free 10 minute news show for students), review I Can statements, write daily academic and behavior goals, and reflect on their performance in school for the day. Educators need access to the internet and the ability to project the videos and news show with audio for the students. Everything else is ready for 50 days of lessons. An introduction (pages 1-6) is included to explain the rationale and research for the structure and content of the student packets. Answer keys are not included for the videos because answers may vary for many questions, and teachers should preview each video before showing it to students to determine if the content is appropriate for their classroom. Additionally, the news show is different every day so it is impossible to prepare a key in advance and students' answers will vary. It is generally not difficult or time-consuming to assess students' responses, which frequently offer valuable insights about their learning and positionality as students.
