The Secret of the Island Jules Verne,2024-05-28 Embark on an extraordinary adventure with Jules Verne's *The Mysterious Island*, a captivating tale of survival, ingenuity, and exploration. First published in 1874, this classic novel combines Verne's love for science and discovery with a gripping narrative that has enthralled readers for generations. The story begins during the American Civil War, when five prisoners of war make a daring escape by hijacking a hot air balloon. As they soar into the unknown, a violent storm causes them to crash on a seemingly uncharted and deserted island in the South Pacific. The castaways-engineer Cyrus Smith, his loyal servant Nab, sailor Bonadventure Pencroff, journalist Gideon Spilett, and the young Herbert Brown-must rely on their wits and resourcefulness to survive in this new and mysterious environment. As they explore the island, which they name Lincoln Island, they encounter a series of perplexing phenomena that suggest they are not alone. From mysterious footprints to inexplicable provisions, the island seems to harbor secrets beyond their wildest imaginations. The group's determination to survive leads them to create a new life using the island's resources, showcasing Verne's fascination with science and technology. The narrative takes a thrilling turn with the discovery of hidden treasures, unexpected dangers, and the unraveling of the island's greatest mystery: the presence of the enigmatic Captain Nemo, who is revealed to have been living in secret after the events of Verne's earlier novel, *Twenty Thousand Leagues Under the Sea*. Nemo's technological marvels and tragic past add depth and intrigue to the story, culminating in a climactic and emotionally charged conclusion. *The Mysterious Island* is more than just an adventure novel; it is a testament to human resilience, curiosity, and the spirit of exploration. Verne's richly detailed descriptions and imaginative storytelling transport readers to a world where anything is possible, and where the power of human ingenuity can overcome even the most daunting challenges. Perfect for fans of classic literature and science fiction, *The Mysterious Island* offers a timeless journey into the unknown. Join Cyrus Smith and his companions as they uncover the island's secrets and face the ultimate test of survival in this masterpiece by Jules Verne.

The Mysterious Island Jules Verne,1986 Based on the true story of Alexander Selkirk, who survived alone for almost five years on an uninhabited island off the coast of Chile, *The Mysterious Island* is considered by many to be Jules Verne's masterpiece. Wide-eyed mid-nineteenth-century humanistic optimism in a breezy, blissfully readable translation by Stump (Kirkus Reviews), here is the enthralling tale of five men and a dog who land in a balloon on a faraway, fantastic island of bewildering goings-on and their struggle to survive as they uncover the island's secret.

The mysterious island. The secret of the island, tr. by W.H.G. Kingston Jules Verne, 1875

The Mysterious Island (with Illustrations by N.C. Wyeth) Jules Verne, *The Mysterious Island* (French: L'Île mystérieuse) is a novel by Jules Verne, published in 1874. The original edition, published by Hetzel, contains a number of illustrations by Jules Férat. The novel is a crossover sequel to Verne's famous *Twenty Thousand Leagues Under the Sea* and *In Search of the Castaways*, though its themes are vastly different from those books. An early draft of the novel, initially rejected by Verne's publisher and wholly reconceived before publication, was titled *Shipwrecked Family: Marooned With Uncle Robinson*, seen as indicating the influence on the novel of *Robinson Crusoe* and *The Swiss Family Robinson*. Verne developed a similar theme in his later novel, *Godfrey Morgan* (French: L'École des Robinsons, 1882). Plot summary The plot focuses on the adventures of five Americans on an uncharted island in the South Pacific. During the American Civil War, five northern prisoners of war decide to escape, during the siege of Richmond, Virginia, by hijacking a balloon. The escapees are Cyrus Smith, a railroad engineer in the Union army (named Cyrus Harding in Kingston's version); his ex-slave and loyal follower Neb (short for Nebuchadnezzar); Bonadventure Pencroff, a sailor (who is addressed only by his surname. In Kingston's translation, he is named Pencroft); his protégé and adopted son Harbert Brown (called Herbert in some translations); and the journalist Gedéon Spilett (Gideon Spilett in English versions). The company is completed by Cyrus' dog Top. After flying in a great storm for several days, the group crash-lands on a cliff-bound, volcanic, unknown island, described as being located at 34°57'S 150°30'W, about 2,500 kilometres (1,600 mi) east of New Zealand. They name it Lincoln Island in honor of their president, Abraham Lincoln. With the knowledge of the brilliant engineer Smith, the five are able to sustain themselves on the island, producing fire, pottery, bricks, nitroglycerin, iron, a simple electric telegraph, a home on a stony cliffside called Granite House, and even a seaworthy ship, which they name the Bonadventure (in honor of Pencroff, the driving force behind its construction). They also manage to figure out their geographical location. Map of Lincoln Island During their stay on the island, the group endures bad weather, and domesticates an orangutan, Jupiter, abbreviated to Jup (or Joop, in Jordan Stump's translation). There is a mystery on the island in the form of an unseen deus ex machina, responsible for Cyrus' survival after falling from the balloon, the mysterious rescue of Top from a dugong, the appearance of a box of equipment (guns and ammunition, tools, etc.), and other seemingly inexplicable occurrences. The group finds a message in a bottle directing them to rescue a castaway on nearby Tabor Island, who is none other than Tom Ayrton (from *In Search of the Castaways*). On the return voyage to Lincoln Island, they lose their way in a tempest but are guided back to their course by a mysterious fire beacon. Ayrton's former companions arrive by chance on Lincoln Island, and try to make it into their lair. After some fighting with the protagonists, the pirate ship is mysteriously destroyed by an explosion. Six of the pirates survive and kidnap Ayrton. When the colonists go to look for him, the pirates shoot Harbert, seriously injuring him. Harbert survives,

but suffers from his injury, narrowly cheating death. The colonists at first assume Ayrton to have been killed, but later they find evidence that he was not instantly killed, making it possible for him to be alive. When the colonists rashly attempt to return to Granite House before Harbert fully recovers, Harbert contracts malaria and is saved by a box of quinine sulphate, which mysteriously appears on the table in Granite House. After Harbert recovers, they attempt to rescue Ayrton and destroy the pirates. They discover Ayrton at the sheepfold, and the pirates dead, without any visible wounds. The secret of the island is revealed when it is discovered to be Captain Nemo's hideout, and home port of the Nautilus. Having escaped the Maelstrom at the end of *Twenty Thousand Leagues Under the Sea*, the Nautilus sailed the oceans of the world until all its crew except Nemo had died. Now an old man with a beard, Nemo returned the Nautilus to its secret port within Lincoln Island. Nemo had been the mysterious benefactor of the settlers, providing them with the box of equipment, sending the message revealing Ayrton, planting the mine that destroyed the pirate ship, and killing the pirates with an electric gun. On his death bed Captain Nemo reveals his true identity as the lost Indian Prince Dakkar, son of a Raja of the then independent territory of Bundelkund and a nephew of the Indian hero Tippu-Sahib. After taking part in the failed Indian Rebellion of 1857, Prince Dakkar escaped to a deserted island with twenty of his compatriots and commenced the building of the Nautilus and adopted the new name of Captain Nemo. Nemo also tells his life story to Cyrus Smith and his friends. Before he dies, he gives them a box of diamonds and pearls as a keepsake. Afterwards, he dies, crying God and my country! (Independence!, in Verne's original manuscript). The Nautilus is scuttled and serves as Captain Nemo's tomb. Afterward, the island's central volcano erupts, destroying the island. Jup the orangutan falls into a crack in the ground and dies. The colonists, forewarned of the eruption by Nemo, find themselves safe but stranded on the last remaining piece of the island above sea level. They are rescued by the ship Duncan, which had come to rescue Ayrton but were redirected by a message Nemo had previously left on Tabor Island. After they return to United States, they form a new colony in Iowa with Nemo's gift, and live happily ever after.
