*Klara and the Sun* Kazuo Ishiguro,2021-03-02 NEW YORK TIMES BESTSELLER • Once in a great while, a book comes along that changes our view of the world. This magnificent novel from the Nobel laureate and author of *Never Let Me Go* is “an intriguing take on how artificial intelligence might play a role in our futures ... a poignant meditation on love and loneliness” (The Associated Press). • A GOOD MORNING AMERICA Book Club Pick! Here is the story of Klara, an Artificial Friend with outstanding observational qualities, who, from her place in the store, watches carefully the behavior of those who

come in to browse, and of those who pass on the street outside. She remains hopeful that a customer will soon choose her. Klara and the Sun is a thrilling book that offers a look at our changing world through the eyes of an unforgettable narrator, and one that explores the fundamental question: what does it mean to love?

Localizing Knowledge in a Globalizing World Ali Mirsepassi, Amrita Basu, Frederick Weaver, 2003-01-01 The essays in this collection address the current crisis in area studies, a crisis that differs from its perennial struggle with the established academic disciplines. This crisis stems from the confluence of three related circumstances: the end of the Cold War; greater economic and cultural fluidity across political borders; and contradictory intellectual trends in the academy, which include on the one hand a renaissance of universalizing thinking in the social sciences and on the other .hand, the rise of post-colonial studies and debates about modernity, postmodernity, and cultural hybridization. Although the essays differ markedly in their focus and strategies, the authors all demonstrate that local knowledge, including serious study of individual cultures and proficiency in foreign languages, which are vital to understanding rapidly changing global patterns and to countering universal claims by the social sciences. While the authors also agree that area studies must reject their ethnocentric heritages and adopt inventive new contours, they present a diversity

An orphan with only vague memories of his own kind, Moon tries to fit in among the tribes of his river valley, with mixed success. Just as Moon is once again cast out by his adopted tribe, he discovers a shape-shifter like himself... someone who seems to know exactly what he is, who promises that Moon will be welcomed into his community. What this stranger doesn't tell Moon is that his presence will tip the balance of power... that his extraordinary lineage is crucial to the colony's survival... and that his people face extinction at the hands of the dreaded Fell! Now Moon must overcome a lifetime of conditioning in order to save and himself... and his newfound kin.

Provincializing Europe Dipesh Chakrabarty, 2009-06-05 First published in 2000, Dipesh Chakrabarty's influential *Provincializing Europe* addresses the mythical figure of Europe that is often taken to be the original site of modernity in many histories of capitalist transition in non-Western countries. This imaginary Europe, Dipesh Chakrabarty argues, is built into the social sciences. The very idea of historicizing carries with it some peculiarly European assumptions about disenchanted space, secular time, and sovereignty. Measured against such mythical standards, capitalist transition in the third world has often seemed either incomplete or lacking. *Provincializing Europe* proposes that every case of transition to capitalism is a case of translation as well—a translation of existing worlds and their thought-categories into the categories and self-understandings of capitalist modernity. Now featuring a new preface in which Chakrabarty responds to his critics, this book globalizes European thought by exploring how it may be renewed both for and from the margins.
