Marla C. Berkowitz, Judith A. Jonas

Deaf and Hearing Siblings in Conversation Marla C. Berkowitz, Judith A. Jonas, 2014-07-31 This is the first book to consider both deaf and hearing perspectives on the dynamics of adult sibling relationships. Deaf and hearing authors Berkowitz and Jonas conducted interviews with 22 adult siblings, using ASL and spoken English, to access their intimate thoughts. A major feature of the book is its analysis of how isolation impacts deaf-hearing sibling relationships. The book documents the 150 year history of societal attitudes embedded in sibling bonds and identifies how the siblings' lives were affected by the communication choices their parents made. The authors weave information throughout the text to reveal attitudes toward American Sign Language and the various roles deaf and hearing siblings take on as monitors, facilitators, signing-siblings and sibling-interpreters, all of which impact lifelong bonds.

I Have a Sister--My Sister Is Deaf Jeanne Whitehouse Peterson, 1984-05-23 A young deaf child who loves to run and jump and play is affectionately described by her older sister. 'Can give young children an understanding of the fact that deaf children . . . share all the interests of children with normal hearing.' 'C. The Oxford Handbook of Deaf Studies in Learning and Cognition Marc Marschark, Harry Knoors, 2020-05-25 In recent years, the intersection of cognitive psychology, developmental psychology, and neuroscience with regard to deaf individuals has received increasing attention from a variety of academic and educational audiences. Both research and pedagogy have addressed questions about whether deaf children learn in the same ways that hearing children learn, how signed languages and spoken languages might affect different aspects of cognition and cognitive development, and the ways in which hearing loss influences how the brain processes and retains information. There are now a number of preliminary answers to these questions, but there has been no single forum in which research into learning and cognition is brought together. The Oxford Handbook of Deaf Studies in Learning and Cognition aims to provide this shared forum, focusing exclusively on learning, cognition, and cognitive development from theoretical, psychological, biological, linguistic, social-emotional, and educational perspectives. Each chapter includes state-of-the-art research conducted and reviewed by international experts in the area. Drawing this research together, this volume allows for a synergy of ideas that possesses the potential to move research,

theory, and practice forward.

A Loss for Words Lou Ann Walker,2011-10-04 A deeply moving, often humorous, and beautiful account of what it means to be the hearing child of profoundly deaf parents . . . I have rarely read anything on the subject more powerful or poignant than this extraordinary personal account by Lou Ann Walker. — Oliver Sacks From the time she was a toddler, Lou Ann Walker acted as the ears and voice for her parents, who had lost their hearing at a young age. As soon as she was old enough to speak, her childhood ended, and she immediately assumed the responsibility of interpreter—translating doctors’ appointments and managing her parents’ business transactions. Their family life was warm and loving, but outside the home, they faced a world that misunderstood and often rejected them. In this deeply moving memoir, Walker offers us a glimpse of a different world, bringing with it a broader reflection on how parents grow alongside their children and how children learn to navigate the world through the eyes of their parents.

El Deafo Cece Bell,2014-09-02 A 2015 Newbery Honor Book & New York Times bestseller! Going to school and making new friends can be tough. But going to school and making new friends while wearing a bulky hearing aid strapped to your chest? That requires superpowers! In this funny, poignant graphic novel memoir, author/illustrator Cece Bell chronicles her hearing loss at a young age and her subsequent experiences with the Phonic Ear, a very powerful—and very awkward—hearing aid. The Phonic Ear gives Cece the ability to hear—sometimes things she shouldn’t—but also isolates her from her classmates. She really just wants to fit in and find a true friend, someone who appreciates her as she is. After some trouble, she is finally able to harness the power of the Phonic Ear and become “El Deafo, Listener for All.” And more importantly, declare a place for herself in the world and find the friend she’s longed for.

The Silent Garden Paul W. Ogden,1996 This sensitive guide is firm support in helping parents make their difficult choices.

Hands of My Father Myron Uhlberg,2009-02-03 By turns heart-tugging and hilarious, Myron Uhlberg’s memoir tells the story of growing up as the hearing son of deaf parents—and his life in a world that he found unaccountably beautiful, even as he longed to escape it. “Does sound have rhythm?” my father asked. “Does it rise and fall like the ocean? Does it come and go like the wind?” Such were the kinds of questions that Myron Uhlberg’s deaf father asked him from earliest childhood, in his eternal quest to decipher, and to understand, the elusive nature of sound. Quite a challenge for a young boy, and one of many he would face. Uhlberg’s first language was American Sign Language, the first sign he learned: “I love you.” But his second

language was spoken English—and no sooner did he learn it than he was called upon to act as his father’s ears and mouth in the stores and streets of the neighborhood beyond their silent apartment in Brooklyn. Resentful as he sometimes was of the heavy burdens heaped on his small shoulders, he nonetheless adored his parents, who passed on to him their own passionate engagement with life. These two remarkable people married and had children at the absolute bottom of the Great Depression—an expression of extraordinary optimism, and typical of the joy and resilience they were able to summon at even the darkest of times. From the beaches of Coney Island to Ebbets Field, where he watches his father’s hero Jackie Robinson play ball, from the branch library above the local Chinese restaurant where the odor of chow mein rose from the pages of the books he devoured to the hospital ward where he visits his polio-afflicted friend, this is a memoir filled with stories about growing up not just as the child of two deaf people but as a book-loving, mischief-making, tree-climbing kid during the remarkably eventful period that spanned the Depression, the War, and the early fifties. From the Hardcover edition.

The Experience of Being the Only Hearing Sibling in an All-deaf Family Audrey Frank, 2011

Kid-friendly Parenting with Deaf and Hard of Hearing Children Daria J. Medwid, Denise Chapman Weston, 1995 A step-by-step guide for parents of children ages 3-12.

Social Competence of Deaf and Hard-of-hearing Children Shirin D. Antia, Kathryn H. Kreimeyer, 2015 Hearing loss, with its resulting communication challenges, can impede the development of social skills and restrict social relationships of deaf and hard-of-hearing (DHH) children. 'Social Competence of Deaf and Hard-of-Hearing Children' is addressed to parents, educators, and researchers interested in the development, assessment, and promotion of social competence in DHH children.

Far From the Tree Andrew Solomon, 2012 The National Book Award-winning author of *The Noonday Demon* explores the consequences of extreme personal differences between parents and children, describing his own experiences as a gay child of straight parents while evaluating the circumstances of people affected by physical, developmental or cultural factors that divide families. 150,000 first printing.

Deaf People and Society Irene W. Leigh, Jean F. Andrews, 2016-08-19 *Deaf People and Society* incorporates multiple perspectives related to the topics of psychology, education, and sociology, including the viewpoints of deaf adults themselves. In doing so, it considers the implications of what it means to be deaf or hard of hearing and how deaf adults' lives are impacted by decisions that professionals make, whether in the clinic, the school, or when working with family. This second edition has been thoroughly revised and offers current perspectives on the following topics: Etiologies of deafness and the identification process The role of auditory access Cognition, language, communication, and literacy Bilingual, bilingual/bimodal, and monolingual approaches to language learning Educational, legal, and placement aspects Childhood psychological issues Psychological and sociological viewpoints of deaf adults The criminal justice system and deaf people Psychodynamics of interaction between deaf and hearing people Each chapter begins with a set of objectives and concludes

with suggested readings for further research. This edition contains 10 new and original case studies, including ones on hearing children of deaf adults, sudden hearing loss, a young deaf adult with mental illness, and more. Written by a seasoned deaf/hearing bilingual team, this unique text continues to be the go-to resource for students and future professionals interested in working with deaf and hard-of-hearing persons.

The Concordance of Attachment Between Deaf/hard of Hearing and Hearing Siblings Talibah E. Buchanan, 2006
Inner Lives of Deaf Children Martha Sheridan, 2001 By conducting interviews with seven deaf children, ages seven to ten, Martha Sheridan offers a fresh look at their private thoughts and feelings in this watershed book. Each child possesses a unique cultural background, and Sheridan communicated with each in his or her preferred method of communication. Her procedure remained consistent with each: In addition to standard questions, Sheridan asked each child to draw a picture based on his or her life, then tell a story about it. Next, she showed them magazine pictures and asked them to describe what they saw. The results proved to be as varied as they were engaging. Angie, an adopted deaf girl who communicates in Signed English, expressed a desire to attend a hearing college when she grows up while also stating she hoped her own children will be deaf. Joe, an African-American, hard of hearing boy, drew pictures of deaf people who are teased in a public school, reflecting his own difficult experiences. Sheridan calls upon her tenure as a social worker as well as her own experience as a deaf child growing up in a hearing family in analyzing her study's results. She writes, "These children have strengths, they have positive experiences, and they enjoy positive relationships." Inner Lives of Deaf Children will prove to be an enlightening read for parents and scholars alike.
