*Roma Felix* Éamonn Ó Carragáin,Carol L. Neuman de Vegvar,2007 After the Roman empire fell, medieval Europe continued to be fascinated by Rome itself, 'the Chief of Cities', once the centre of the empire, including its history, its buildings, and above all its early Christian martyrs, and the papacy, central to the western Latin church. This book explores ways in which the city itself was preserved, envisioned, and transformed not only by its residents, but also by the many pilgrims who flocked to Rome, and by northern European cultures (in particular, the Irish and English) who imagined and imitated the city as they understood it.

The Routledge Handbook of Translation and Activism Rebecca Gould,Kayvan Tahmasebian,2020-06-02 The Routledge Handbook of Translation and Activism provides an accessible, diverse and ground-breaking overview of literary, cultural, and political translation across a range of activist contexts. As the first extended collection to offer perspectives on translation and activism from a global perspective, this handbook includes case studies and histories of oppressed and marginalised people from over twenty different languages. The contributions will make visible the role of translation in promoting and enabling social change, in promoting equality, in fighting discrimination, in supporting human rights, and in challenging autocracy and injustice across the Middle East, Africa, Latin America, East Asia, the US and Europe. With a substantial introduction, thirty-one chapters, and an extensive bibliography, this Handbook is an indispensable resource for all activists, translators, students and researchers of translation and activism within translation and interpreting studies.

**Starting to Teach Latin** Steven Hunt,2016-02-11 This handbook for teachers provides both practical, up-to-date guidance and a theoretical overview on a number of key topics in Latin teaching. Using a wealth of interviews, observations and pupil transcripts, Steven Hunt title utilizes case-study evidence of excellent practice in teaching and learning from a wide variety of institutions: from outreach programmes, community schools and academies in the UK, to New York Charter Schools, KIP schools and schools in Eastern Seaboard states in the USA. Offering practical advice on topics such as essay writing, teaching controversial topics including women, slavery, ethnicity and social hierarchy, making use of primary sources and using ICT to advance language skills, the book also engages with broader questions of approach and theory. These include a survey of the three main approaches to Latin teaching: grammar-translation, communicative and reading approaches; explanation of cognitive and social approaches to learning; and analysis of the differences between intrinsic and extrinsic motivation. Moreover, traditional arguments about the value and purpose of learning Latin at school level are re-examined in the light of current educational thinking and government policy-making. This book is invaluable for trainees, newly qualified teachers and more experienced practitioners looking for practical ideas and strategies to motivate and engage learners of Latin. A companion website [www.startingtoteachlatin.org](http://www.startingtoteachlatin.org) is under construction and will contain a range of resources and information for teachers.
