Entangled Graham Hancock, 2010-11 ... Two brave young women living at opposite ends of history are brought together by supernatural forces to do battle with a demon who travels through time. The fate of humanity rests in their hands ...--Page 4 of cover.

Magicians of the Gods Graham Hancock, 2015-09-10 TV presenter Graham Hancock's multi-million bestseller Fingerprints of the Gods remains an astonishing, deeply controversial, wide-ranging investigation of the mysteries of our past and the evidence for Earth's lost civilization. Twenty years on, Hancock returns with a book filled with completely new, scientific and archaeological evidence, which has only recently come to light... The evidence revealed in this book shows beyond reasonable doubt that an advanced civilization that flourished during the Ice Age was destroyed in the global cataclysms between 12,800 and 11,600 years ago. Near the end of the last Ice Age 12,800 years ago, a giant comet that had entered the solar system from deep space thousands of years earlier, broke into multiple fragments. Some of these struck the Earth causing a global cataclysm on a scale unseen since the extinction of the dinosaurs. At least eight of the fragments hit the North American ice cap, while further fragments hit the northern European ice cap. The impacts, from comet fragments a mile wide approaching at more than 60,000 miles an hour, generated huge amounts of heat which instantly liquidized millions of square kilometres of ice, destabilizing the Earth's crust and causing the global Deluge that is remembered in myths all around the world. A second series of impacts, equally devastating, causing further cataclysmic flooding, occurred 11,600 years ago, the exact date that Plato gives for the destruction and submergence of Atlantis. But there were survivors - known to later cultures by names such as 'the Sages', 'the Magicians', 'the Shining Ones', and 'the Mystery Teachers of Heaven'. They travelled the world in their great ships doing all in their power to keep the spark of civilization burning. They settled at key locations - Gobekli Tepe in Turkey, Baalbek in the Lebanon, Giza in Egypt, ancient Sumer, Mexico, Peru and across the Pacific where a huge pyramid has recently been discovered in Indonesia. Everywhere they went these 'Magicians of the Gods' brought with them the memory of a time when mankind had fallen out of harmony with the universe and paid a heavy price. A memory and a warning to the future... For the comet that wrought such destruction between 12,800 and 11,600 years may not be done with us yet. Astronomers believe that a 20-mile wide 'dark' fragment of the original giant comet remains hidden within its debris stream and threatens the Earth. An astronomical message encoded at Gobekli Tepe, and in the Sphinx and the

pyramids of Egypt, warns that the 'Great Return' will occur in our time...

Fingerprints of the Gods Graham Hancock, 2012-09-19 Could the story of mankind be far older than we have previously believed? Using tools as varied as archaeo-astronomy, geology, and computer analysis of ancient myths, Graham Hancock presents a compelling case to suggest that it is. Graham Hancock is featured in *Ancient Apocalypse*, a Netflix original docuseries. "A fancy piece of historical sleuthing . . . intriguing and entertaining and sturdy enough to give a long pause for thought."—Kirkus Reviews In *Fingerprints of the Gods*, Hancock embarks on a worldwide quest to put together all the pieces of the vast and fascinating jigsaw of mankind's hidden past. In ancient monuments as far apart as Egypt's Great Sphinx, the strange Andean ruins of Tihuanaco, and Mexico's awe-inspiring Temples of the Sun and Moon, he reveals not only the clear fingerprints of an as-yet-unidentified civilization of remote antiquity, but also startling evidence of its vast sophistication, technological advancement, and evolved scientific knowledge. A record-breaking number one bestseller in Britain, *Fingerprints of the Gods* contains the makings of an intellectual revolution, a dramatic and irreversible change in the way that we understand our past—and so our future. And *Fingerprints of God* tells us something more. As we recover the truth about prehistory, and discover the real meaning of ancient myths and monuments, it becomes apparent that a warning has been handed down to us, a warning of terrible cataclysm that afflicts the Earth in great cycles at irregular intervals of time—a cataclysm that may be about to recur. "Readers will hugely enjoy their quest in these pages of inspired storytelling."—The Times (UK)

Supernatural Graham Hancock, 2006-09-01 Publisher's Note: A new, expanded edition has replaced this book under the new title *Visionary: The Mysterious Origins of Human Consciousness*, ISBN 9781637480069 This definitive edition includes a new Introduction by Graham Hancock as well as restored chapters that were omitted from the original paperback release. Less than fifty thousand years ago mankind had no art, no religion, no sophisticated symbolism, no innovative thinking. Then, in a dramatic and electrifying change, described by scientists as the greatest riddle in human history, all the skills and qualities that we value most highly in ourselves appeared already fully formed, as though bestowed on us by hidden powers. In *Supernatural* Graham Hancock sets out to investigate this mysterious beforeandafter moment and to discover the truth about the influences that gave birth to the modern human mind. His quest takes him on a detective journey from the stunningly beautiful painted caves of prehistoric France, Spain, and Italy to rock shelters in the mountains of South Africa, where he finds extraordinary Stone Age art. He uncovers clues that lead him to the depths of the Amazon rainforest to drink the powerful hallucinogen Ayahuasca with shamans, whose paintings contain images of supernatural beings identical to the animalhuman hybrids depicted in prehistoric caves. Hallucinogens such as mescaline also produce visionary encounters with exactly the same beings. Scientists at the cutting edge of consciousness research have begun to consider the possibility that such hallucinations may be real perceptions of other dimensions. Could the supernaturals first depicted in the painted caves

be the ancient teachers of mankind? Could it be that human evolution is not just the meaningless process that Darwin identified, but something more purposive and intelligent that we have barely begun to understand?

The Master Game Graham Hancock, Robert Bauval, 2011-09-13 *The Master Game* is a rollercoaster intellectual journey through the back streets and rat runs of history to uncover the traces in architecture and monuments of a secret religion that has shaped the world. Pivotal historical events and processes, not least the Renaissance, the birth of scientific rationalism, and the French and American revolutions, are radically reevaluated in the light of new investigative evidence presented in *The Master Game*. Even the belief that the United States has a global mission, so obvious today, may ultimately prove to be less the result of a shortterm reaction to terrorism than the inevitable working out of a covert plan originally set in motion

almost two thousand years ago. The Master Game refers to a scheme or game played on the world stage to bring about a world order governed by a lofty goal which, today, we term the Masonic Ideal. The Master Game traces the origins of this game of symbols and words and talismans from ancient Egypt all the way to modern times, and places it squarely on the elitist Scottish Rite Freemasonry, headquartered in Washington, DC, and ruled by a secretive and powerful brotherhood of men who have attained the thirtythird degree. The Master Game exposes this world order's true purpose and, more importantly, shows how it has affected the United States of America and badly backfired on 9/11. The book is adapted and expanded from the authors' earlier, outofprint book Talisman.

America Before Graham Hancock, 2019-04-23 The Instant New York Times Bestseller! Was an advanced civilization lost to history in the global cataclysm that ended the last Ice Age? Graham Hancock, the internationally bestselling author, has made it his life's work to find out--and in *America Before*, he draws on the latest archaeological and DNA evidence to bring his quest to a stunning conclusion. We've been taught that North and South America were empty of humans until around 13,000 years ago - amongst the last great landmasses on earth to have been settled by our ancestors. But new discoveries have radically reshaped this long-established picture and we know now that the Americas were first peopled more than 130,000 years ago - many tens of thousands of years before human settlements became established elsewhere. Hancock's research takes us on a series of journeys and encounters with the scientists responsible for the recent extraordinary breakthroughs. In the process, from the Mississippi Valley to the Amazon rainforest, he reveals that ancient New World cultures share a legacy of advanced scientific knowledge and sophisticated spiritual beliefs with supposedly unconnected Old World cultures. Have archaeologists focused for too long only on the Old World in their search for the origins of civilization while failing to consider the revolutionary possibility that those origins might in fact be found in the New World? *America Before: The Key to Earth's Lost Civilization* is the culmination of everything that millions of readers have loved in Hancock's body of work over the past decades, namely a mind-dilating exploration of the mysteries of the past, amazing archaeological discoveries and profound implications for how we lead our lives today.

Talisman Graham Hancock, Robert Bauval, 2005-10-25 The bestselling authors of *The Secret of the Sphinx* relate the extraordinary account of a longstanding conspiracy at the heart of Western civilization, the visual evidence of which surrounds us all. A talisman is an object with "meaning." It is a potent symbol or icon that can fire the imagination and emotions of men and women anywhere, any time. It can be a small amulet, a ring, a flag, a statue, a monument, and even a whole city. Think of a wedding ring. Think of the Statue of Liberty or the collapsing Twin Towers of New York, or the toppling statue of Saddam Hussein. Think of the Wailing Wall. Think of Jerusalem. . . Talisman is a roller-coaster intellectual journey through the back streets and rat runs of history to uncover the traces in architecture and monuments of a secret religion that has shaped the world. The story takes us from Heliopolis to Luxor, Alexandria, Toulouse, Florence, Rome, Paris, London, Washington DC, New York, and finally to the global pandemonium following September 11, 2001. It is a tale filled with romance and intrigue, heroism and faith, peopled by ancient Egyptian astronomer-priests, Christian Gnostics, Hermetic sages, learned Jews, Arab savants, Occitan counts, Cathar "perfects," Knights Templar, Renaissance magi, Rosicrucian "invisibles," Bavarian Illuminati, and Freemasons. Pivotal historical events and processes, not least the Renaissance, the birth of scientific rationalism, and the French and American Revolutions, are radically re-evaluated in the light of new investigative evidence presented for the first time in *Talisman*. Even the belief that the United States has a "global mission," so obvious today, may ultimately prove to be less the result of a short-term reaction to terrorism than the inevitable working out of a covert plan originally set in motion almost 2000 years ago. With its eye-catching amazing revelations, extensive documentation, and all-encompassing theories, *Talisman* will ensure that its readers will never look at the world in the same way.

To Kill a Mockingbird Harper Lee, 2014-07-08 Voted America's Best-Loved Novel in PBS's *The Great American Read* Harper Lee's Pulitzer Prize-winning masterwork of honor and injustice in the deep South—and the heroism of one man in the face of blind and violent hatred One of the most cherished stories of all time, *To Kill a Mockingbird* has been translated into

more than forty languages, sold more than forty million copies worldwide, served as the basis for an enormously popular motion picture, and was voted one of the best novels of the twentieth century by librarians across the country. A gripping, heart-wrenching, and wholly remarkable tale of coming-of-age in a South poisoned by virulent prejudice, it views a world of great beauty and savage inequities through the eyes of a young girl, as her father—a crusading local lawyer—risks everything to defend a black man unjustly accused of a terrible crime.

The Mars Mystery Graham Hancock,2010-08-11 An asteroid transformed Mars from a lush planet with rivers and oceans into a bleak and icy hell. Is Earth condemned to the same fate, or can we protect ourselves and our planet from extinction? In his most riveting and revealing book yet, Graham Hancock examines the evidence that the barren Red Planet was once home to a lush environment of flowing rivers, lakes, and oceans. Could Mars have sustained life and civilization? Megaliths found on the parched shores of Cydonia, a former Martian ocean, mirror the geometrical conventions of the pyramids at Egypt's Giza necropolis. Especially startling is a Sphinx-like structure depicting a face with distinguishable diadem, teeth, mouth and an Egyptian-style headdress. Might there be a connection between the structures of Egypt and those of Mars? Why does NASA continue to dismiss these remarkable anomalies as a trick of light? Hancock points to the intriguing possibility that ancient Martian civilization is communicating with us through the remarkable structures it left behind. In exploring the possible traces left by the Martian civilization and the cosmic cataclysm that may have ended it, *The Mars Mystery* is both an illumination of our ancient past and a warning--that we still have time to heed--about our ultimate fate.

Slave Species of the Gods Michael Tellinger,2012-09-10 Our origins as a slave species and the Anunnaki legacy in our DNA • Reveals compelling new archaeological and genetic evidence for the engineered origins of the human species, first proposed by Zecharia Sitchin in *The 12th Planet* • Shows how the Anunnaki created us using pieces of their own DNA, controlling our physical and mental capabilities by inactivating their more advanced DNA • Identifies a recently discovered complex of sophisticated ruins in South Africa as the city of the Anunnaki leader Enki Scholars have long believed that the first civilization on Earth emerged in Sumer some 6,000 years ago. However, as Michael Tellinger reveals, the Sumerians and Egyptians inherited their knowledge from an earlier civilization that lived at the southern tip of Africa and began with the arrival of the Anunnaki more than 200,000 years ago. Sent to Earth in search of life-saving gold, these ancient Anunnaki astronauts from the planet Nibiru created the first humans as a slave race to mine gold--thus beginning our global traditions of gold obsession, slavery, and god as dominating master. Revealing new archaeological and genetic evidence in support of Zecharia Sitchin's revolutionary work with pre-biblical clay tablets, Tellinger shows how the Anunnaki created us using pieces of their own DNA, controlling our physical and mental capabilities by inactivating their more advanced DNA--which

explains why less than 3 percent of our DNA is active. He identifies a recently discovered complex of sophisticated ruins in South Africa, complete with thousands of mines, as the city of Anunnaki leader Enki and explains their lost technologies that used the power of sound as a source of energy. Matching key mythologies of the world's religions to the Sumerian clay tablet stories on which they are based, he details the actual events behind these tales of direct physical interactions with "god," concluding with the epic flood--a perennial theme of ancient myth--that wiped out the Anunnaki mining operations. Telling shows that, as humanity awakens to the truth about our origins, we can overcome our programmed animalistic and slave-like nature, tap in to our dormant Anunnaki DNA, and realize the longevity and intelligence of our creators as well as learn the difference between the gods of myth and the true loving God of our universe.
