Modern Legal Drafting Peter Butt,Richard Castle,2006-10-23 In the second edition of this highly regarded text, the authors show how and why traditional legal language has developed the peculiar characteristics that make legal documents inaccessible to the end users. Incorporating recent research and case law, the book provides a critical examination of case law and the rules of interpretation. Detailed case studies illustrate how obtuse or outdated words, phrases and concepts can be rewritten, reworked or removed altogether. Particularly useful is the step-by-step guide to drafting in the modern style, using examples from four types of common legal documents: leases, company constitutions, wills and conveyances. Readers will gain an appreciation of the historical influences on drafting practice and the use of legal terminology. They will learn about the current moves to reform legal language, and receive clear instruction on how to make their writing clearer and their legal documents more useful.

Indiana Notary Public Guide Indiana Secretary of State, 2019-04-06 A notary is a public official responsible for independently verifying signatures and oaths. Depending on how a document is written, a notarization serves to affirm the identity of a signer and the fact that they personally executed their signature. A notarization, or notarial act, officially documents the identity of a party to a document or transaction and the occasion of the signing that others can rely upon, usually at face value. A notary's authentication is intended to be reliable, to avoid the inconvenience of having to locate a signer to have them personally verify their signature, as well as to document the execution of a document perhaps long after the lifetime of the signer and the notary. An oath is a sworn statement. In most cases a person will swear that a written statement, oral statement, or testimony they are about to give is true. A notary can document that the notary administered an oath to an individual.
